Summary

Multidisciplinary designer and communications specialist with a foundation in Integrated Design & Media from NYU. Experienced in producing high-impact visual collateral, sales presentations, editorial one-pagers, and multimedia assets that translate complex subject matter into clear, intuitive narratives. Technically fluent across digital design suites, code, data visualization, and AI workflows, with a proven ability to bridge creative design, data, and cross-functional team needs.

Core Competencies

Design & Collateral Development: Pitch Decks, Presentation Design, Slide Templates, One-Pagers, Brand Identity, Visual Hierarchy, Typography, Digital Collateral, Asset Management

Creative & Multimedia Production: Adobe InDesign, Illustrator, Premiere Pro, Figma, Canva, CapCut, Short-Form Video Production, Image & Video Editing

Technical & Data Literacy: Python, HTML, CSS, JavaScript, Data Visualization Principles, Information Architecture, Workflow Automation, Prompt Engineering

Communication & Strategy: Content Strategy, Cross-Functional Collaboration, Editorial Writing, Audience Research, Event Coordination

Experience

Qualia Contemporary Art — Palo Alto, CA

Communications & Growth Development Specialist | January 2026 – Present

- Design and produce bespoke visual materials, partner presentations, digital campaigns, and editorial one-pagers that translate nuanced concepts into accessible, engaging narratives for institutional partners and collectors.
- Establish modular design templates and visual asset systems across digital marketing, email, and print catalogs, ensuring brand consistency and expediting production turnaround.
- Conceive and edit short-form video assets and high-performing digital content, translating complex background material into digestible visual stories that significantly broadened audience reach.
- Partner cross-functionally to coordinate high-profile events and panels—including a collaborative panel with UC Berkeley—managing promotional collateral, outreach strategy, and event logistics for over 150 attendees.
- Integrate generative AI workflows and custom scripting to rapidly synthesize documentation, parse artist records, and streamline cross-platform content adaptation.

Harvestworks Digital Media Arts Center — New York, NY

Multimedia Production Assistant | April 2025 – June 2025

- Supported technical setups, hardware interfaces, and spatial media systems for multidisciplinary exhibitions and live presentations.
- Collaborated directly with lead creators to bridge creative intent with practical technical execution, managing rapid problem-solving in high-stakes, fast-paced environments.
- Documented system configurations and organized media assets across multiple presentation environments to ensure smooth day-to-day operations.

Education

New York University — New York, NY

Bachelor of Science in Integrated Design and Media | Graduated May 2025

Minor in Media, Culture, and Communication

- Relevant Focus: Visual Design Systems, Digital Content Creation, User Research & Usability, Information Architecture, Web & Interaction Design, Media Theory.
- Global Academic Studies: Immersive coursework in Florence, Italy and Seoul, South Korea focusing on cross-cultural communications and community networks.

Projects

Experimental Arts & Acoustic Programming — Palo Alto, CA

Curator & Collaborative Producer | June 2026 – Present

- Conduct demographic research and audience analysis to conceptualize, brand, and launch ongoing community event series.
- Design all promotional pitch decks, public-facing digital collateral, and informational frameworks to build partner engagement and community participation.
